This year the fifth edition of the Onze Ambassade Festival will take place. We will once again celebrate the opening of the cultural season with an interdisciplinary festival. The program brings together various art forms and gives a good impression of West's programme. In the building designed by Marcel Breuer, originally used as an American embassy, you can listen to international, leading, experimental music, exhibitions with contemporary artists, and a brand new performance by young artists from the KABK. These are interspersed with danceable music by DJs from RadioTonka and the special, international music program specially composed by curator Alex Andropoulos.

With this special cultural mix in the heart of the Museumkwartier in The Hague, we are shaping a cultural year full of challenges and new projects in an idiosyncratic way. With this, we want to stimulate and invite you to continue to follow West Den Haag in the coming period.

In addition to the continuous music program, the exhibitions can also be visited throughout the evening.

The cultural season opens in the first weekend of September with the new Spotlight Festival The Hague. There are all kinds of things to see and experience throughout the city. The program is free and you do not need to make a reservation. Drop by!
